electronic passcodes and User IDs necessary to access and file documents via the appropriate ULS system. However, the Commission refused to respond to the correspondence. Therefore, documents were manually filed with FCC Secretary Marlene Dortch at 445 Twelfth Street, SW, Washington, DC 20554.

*47 CFR section 1.939 Petitions To Deny, partially reads as follows:*

*(a) Who may file. Any party in interest may file with the Commission a petition to deny any application listed in a Public Notice as accepted for filing, ....*

An issue of licenses would be inconsistent with the public interest given the compensatory and punitive damages created from an entities build-out of a network, during the time which the case is on appeal in the Court of Appeals in the District of Columbia Circuit. Jurisdiction was removed to the federal appellate circuit courts upon the filing of Notices of Appeal, which were executed. Electronic Service was executed on Auction No.58 participants, while an “Ex-Parte Motion for Service by a U.S. Marshal was filed at the Court of Appeals in the District of Columbia Circuit. This was to insure proper service. The very conflict of determining the High & Winning Bidder brings into question the procedures followed during the auction process, which was created and structured to insure participation by small Designated Entities. The Designated Entities have upper financial parameters for participation in C & F “set-aside blocks.” Please find an affidavit attached which affirms Ameer Flippin’s Reply to the Oppositions filed by numerous Auction No.58 Participating Entities.
